COMPANY INFORMATION

Namron, Inc. is a NYS/NYC MBE-certified mechanical contractor specializing in HVAC, refrigeration, ventilation, and sheet metal, serving NYC public agencies and the greater metro area since 2002. Our leadership brings over 40 years of combined industry experience, with a proven track record on NYC School Construction Authority, Department of Design and Construction, and MTA projects. Namron operates its own in-house sheet metal fabrication shop, giving us direct control over ductwork quality, lead times, and scheduling on every job.

CAPABILITIES

Full-service mechanical scope, self-performed start to finish — from design through fabrication and installation — eliminating subcontractor markups and schedule risk:

- Sheet metal design & fabrication (in-house shop)
- Project design and build services
- Equipment sales & installation — air handlers, fans, rooftop units, VRV/VRF systems
- High-efficiency heat pump systems, mini split technology, PTAC units
- BMS controls
- Preventative maintenance
- Retrofitting capabilities

TOP PROJECT REFERENCES

PS 219X Auditorium Upgrade — NYCSCA	\$940,000
16 wall-mounted ductless air handlers, two 20-ton VRF condensers, refrigeration lines & custom sheet metal enclosures. Completed 09/2023
